Coud-Clone Corp.

RPD152Hu01 20µg Recombinant Fibulin 2 (FBLN2) Organism Species: Homo sapiens (Human) Instruction manual

FOR IN VITRO USE AND RESEARCH USE ONLY NOT FOR USE IN CLINICAL DIAGNOSTIC PROCEDURES

10th Edition (Revised in Jan, 2014)

[PROPERTIES]

Residues: IIe858~Ser1069 Tags: N-terminal His-Tag Accession: P98095 Host: *E. coli* Subcellular Location: Secreted, extracellular space, extracellular matrix. Purity: >95% Endotoxin Level: <1.0EU per 1µg (determined by the LAL method). Formulation: Supplied as Iyophilized form in 10mM PBS, pH7.4, containing 1mM DTT, 5% trehalose, 0.01% sarcosyl and preservative. Predicted isoelectric point: 5.6 Predicted Molecular Mass: 24.5kDa Applications: SDS-PAGE; WB; ELISA; IP.

(May be suitable for use in other assays to be determined by the end user.)

[<u>USAGE</u>]

Reconstitute in sterile ddH₂O.

1304 Langham Creek Dr. Saite 226, Heastan, TX 77094, USA | 001-888-960-7402 | www.cloud-cloue.us | mail/sicioud-clone.esn Export Processing Zone, Wuhan, Hubei 430056, PRC | 0086-000-880-0687 | www.cloud-clone.com | mail/sicioud-clone.com

Cloud-Clone Corp.

Storage: Avoid repeated freeze/thaw cycles.

Store at 2-8°C for one month. Aliquot and store at -80°C for 12 months.

Stability Test: The thermal stability is described by the loss rate of the target protein. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. (Referring from China Biological Products Standard, which was calculated by the Arrhenius equation.) The loss of this protein is less than 5% within the expiration date under appropriate storage condition.

[<u>SEQUENCES</u>]

The sequence of the target protein is listed below.
