

**RAB043Hu21**

**Recombinant Antibody to Tumor Necrosis Factor Receptor Superfamily, Member**

**7 (TNFRSF7)**

**Organism Species: Homo sapiens (Human)**

***Instruction manual***

FOR RESEARCH USE ONLY

NOT FOR USE IN CLINICAL DIAGNOSTIC PROCEDURES

---

---

13th Edition (Revised in Aug, 2023)

## **[ PROPERTIES ]**

**Source:** Recombinant monoclonal antibody preparation

**Host:** 293F cell

**Antibody isotype:** IgG2b Kappa

**Purification:** Protein A affinity chromatography

**Traits:** Liquid

**Concentration:** 150µg/mL

**UOM:** 20µL

**Applications:** WB;FCM.

## **[ IMMUNOGEN ]**

**Immunogen:** Recombinant (TNFRSF7) expressed in 293F cell

## **[ APPLICATIONS ]**

For flow cytometry, the suggested use of this reagent is <0.1ug per million cells in 100ul volume.

## **[ FORMULATION ]**

**Form&Buffer:** PBS, pH7.4, containing 0.05%Proclin300, 50% glycerol.

## **[ STORAGE AND STABILITY ]**

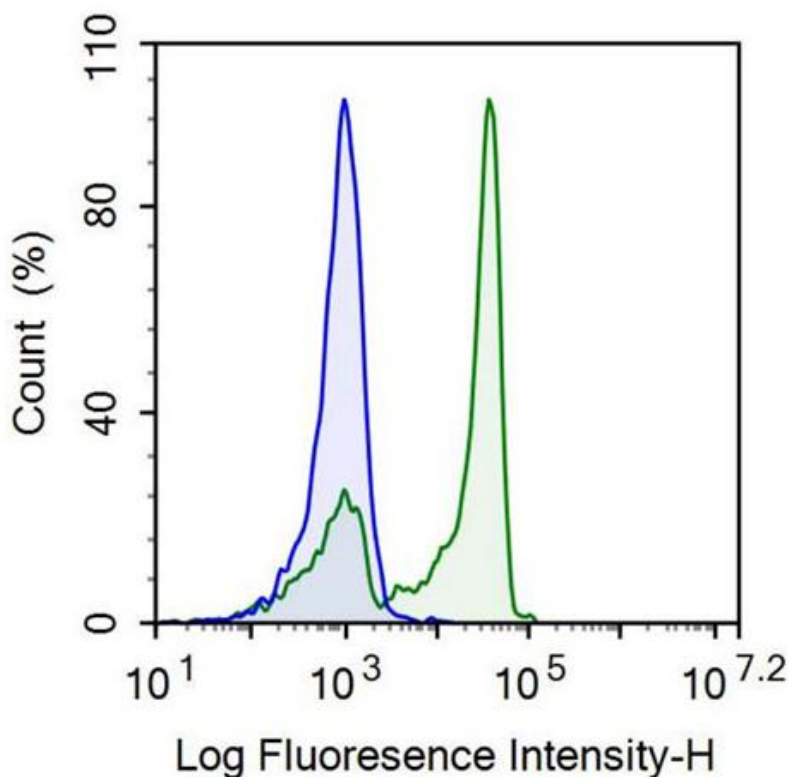

**Storage:** Avoid repeated freeze/thaw cycles.

Store at 4°C for frequent use.

Aliquot and store at -20°C for 12 months.

**Stability Test:** The thermal stability is described by the loss rate. The loss rate was determined by accelerated thermal degradation test, that is, incubate the protein at 37°C for 48h, and no obvious degradation and precipitation were observed. The loss rate is less than 5% within the expiration date under appropriate storage condition.

### [ IDENTIFICATION ]

Human peripheral blood lymphocytes were stained with 10µg/ml mouse Anti-human TNFRSF7 Recombinant Antibody (Catalog RAB043Hu21, green histogram) or Isotype control antibody (Catalog IS067-Mu03, blue histogram), followed by 1µg/ml FITC-conjugated Anti-mouse IgG Secondary Antibody (Catalog SAA544Mu18)

### [ IMPORTANT NOTE ]

The kit is designed for research use only, we will not be responsible for any issue if the kit was used in clinical diagnostic or any other procedures.
